

Deeper Investigation Areas

Key questions requiring further research beyond our project scope. Identified technical, experiential, and cultural considerations that Ford should explore to refine hands-free cargo access implementation.

TECHNICAL

Timing

Can we make the opening experience faster than the current experience?

EXPERIENCE

Cultural Nuance

Investigate if there are personal preference trends that override the convenience a certain modality provides.

GAZE

Security

What are the security and personalization options for eye gaze?

VOICE

Wake word

What kind of wake word would be appropriate?

Learnings and Reflection

- 01 Unconstrained visioning runs the risk of being improbable to implement
- 02 Designing for inclusion leads to better design for everyone
- 03 Frameworks and strategy are only as good as the teams that receives them
