

Guiding principles

Nail the core

We're known for light and sound.
Before we grow into anything else,
that experience has to be excellent

One through line

Favorites connects the core to
everything else: device, app, and
content.

Age-appropriate by default

Surface what's relevant now, not
everything that might matter
someday

Guide, don't regiment

Parents are already
overwhelmed. We show the path.
We don't force the workflow.

Familiar over clever

This app gets used at 2am, half
asleep. Patterns people already
know. No learning curve.

New Paradigm

Favorite

Light /+ Sound
