

**Highlight the fact
that it's shared**

By default nothing is shared in AR

Low floor, high ceiling — wide door

**If someone has the projector, you don't
need to learn anything**

**The interaction is
exploration**

**Have you ever
explored a space?**

**If you've explored a space than you know
how to use it**

**Doing a thing with people that feels so
human — building it off of something that
people have spent their whole life doing**

**People cannot think outside of mobile
phones as a solution....**
